

# CASE STUDY – River Hall, Waldringfield

- **Client:**

Private Client

- **Project Manager:**

Stephen Ralph

- **Principal Contractor:**

Rattee & Kett Ltd

- **Value:**

£35K

- **Date:**

December 2008 –  
February 2009

*Almost complete*

*Before*

## **Description:**

This unusual project involved re-building a 'Peach' retaining wall. The existing wall had collapsed due to land slide. The new wall was designed with a block work reinforced retaining wall with a handmade brick facing in lime mortar to match the existing structure, capped with a hand made gault clay coping.

## **The works involved:**

- Groundworks.
- Block work reinforced retaining wall built to engineers' design.
- Traditional brickwork.
- Land / French drainage works.
