

# CASE STUDY – *Wistow Bridge*

• **Client:**  
Cambridgeshire Highways

• **Principal Contractor:**  
Atkins

• **Value:**  
£20k

• **Date:**  
Autumn 2009

## **Description**

Rattee & Kett's works included surveying the existing soffits and cut waters to produce a works package to restore the masonry at the same time the carriageway was being extended. This included petrographic testing the original material to ensure the correct material was used for all replacement.

## **The works involved:**

- Specification design.
- Correct stone selection.
- Site installation.
- Graffiti removal.
